

Dear _____

I've been accepted to the 2014 semester of Ocean Classroom; my goal is to attend and experience this fantastic opportunity! The Ocean Classrooms Foundation is a non-profit organization that puts together two trips a year to sail the East Coast. For four months I'll be bunking on the Harvey Gamage, with twenty other students, learning important social and team building skills. For every port the schooner docks at, there will be field trips to support the encouragement of learning the local geography, culture and much more.

As an upcoming senior at the Boothbay Region High School, it is pertinent that I finish off my high school career strong. While on the boat, I will be tutored in my school scheduled classes such as AP Literature, AP Calculus and Spanish. On top of those classes, the OCF educates my shipmates and me on how to maintain the Harvey Gamage; we will be hoisting the sails, keep watch for ocean hazards and much more! The OCF also provides classes such as marine science, marine applied mathematics, and seamanship navigation to the students, making all the acquired learning more applicable in future occupations.

Unfortunately I cannot pay for all of this tuition by myself. That is why I'm looking for financial support, and with your donation I can embark this spring on a trip of a life time! The ocean has a lot to offer and I plan on making every experience as memorable as it is unique.

Sincerely,

Josiah M. Purin
